

## ~ First Access Chapter Starter Information ~

### What is a chapter?

A First Access chapter is a local branch of our non-profit organization, composed of dedicated volunteers who are passionate about improving the health and well-being of children in underserved communities. Each chapter brings together a diverse group of individuals who collaborate to provide essential hygiene, menstrual, and first aid supplies to those in need. Our chapters often work in partnership with international organizations and local NGOs to identify specific needs and deliver targeted support. A chapter is a continuous commitment to our mission that follows the structure of a typical non-profit.
